SUMMARY

Aspiring Front-end development professional, with expertise in HTML, CSS, Javascript, and ReactJs. Curious to learn about emerging web technologies. Looking forward to working in a fast-paced environment and playing a key role in a company's growth. Strongly interested in obtaining a Software Developer position to work on enhancing the product experience.

PROJECT

Maxfashion.com

A clone of the E-commerce Online Shopping Website.

Duration: 05 days

Tech stack used : HTML, CSS, JavaScript, local-storage

Features: Navbar | Log-In | SignUp Page | Products | Cart | Search bar |
Checkout & Payment | Slider | Import-export | Local storage

Area of Responsibility:

- Cart Page implemented using local storage as a database
- Can remove products from the cart and update the price and number of products

Collaborative Project accomplished with a team of 5 developers.

Engagebay.com

Affordable, all-in-one Marketing, Sales, and Support CRM platform for small businesses to attract, nurture leads, and service customers.

Duration: 05 days

Tech stack used: ReactJs, JavaScript, ChakraUI

Features: Navbar | Log-In | SignUp Page | Products | Footer | Slider | Private Routes | Authentication using tokenization

Area of Responsibility:

- Fully used ChakraUI for building homepage, login page
- Used routers for navigating to different pages
- Authentication for products page

Individual Project

ACHIEVEMENT

GATE Qualified 2020
